Batch 3 CWD

Table

Tables are a nice way to organize a lot of data. We provide a few utility classes to help you style your table as easily as possible. In addition, to improve mobile experience, all tables on mobile-screen widths are centered automatically.

Name	Item Name	Item Price
Alvin	Eclair	\$0.87
Alan	Jellybean	\$3.76
Jonathan	Lollipop	\$7.00

Striped Table

Add class="striped" to the table tag for a striped table

Name	Item Name	Item Price
Alvin	Eclair	\$0.87
Alan	Jellybean	\$3.76
Jonathan	Lollipop	\$7.00

Media CSS - Materialize x Table - Materialize x June 18, 2023 (Table & Media) x Day 2 Activity - (Table & Media) x Scenic View of River - Free x Table & Media

127.0.0.1:3002/Untitled-1.html

Alan	Jellybean	\$3.76
Jonathan	Lollipop	\$7.00

Highlight Table

Add class="highlight" to the table tag for a highlight table.

Name	Item Name	Item Price
Alvin	Eclair	\$0.87
Alan	Jellybean	\$3.76
Jonathan	Lollipop	\$7.00

Centered Table

Add class="centered" to the table tag to center align all the text in the table.

Name	Item Name	Item Price
Alvin	Eclair	\$0.87
Alan	Jellybean	\$3.76
Jonathan	Lollipop	\$7.00

Responsive Table

Responsive Table

Add class="responsive-table" to the table tag to make the table horizontally scrollable on smaller screen widths.

Name	Item Name	Item Price
Alvin	Eclair	\$0.87
Alan	Jellybean	\$3.76
Jonathan	Lollipop	\$7.00

Media CSS

Images

Images can be styled in different ways using Materialize

Responsive Images

To make images resize responsively to page width, you can add the class responsive-img to your image tag. It will now have a max-width: 100% and height:auto.

Circular images

This is a square image. Add the "circle" class to it to make it appear circular.

Circular images

This is a square image. Add the "circle" class to it to make it appear circular.

Videos

We provide a container for Embedded Videos that resizes them responsively.

Responsive Embeds

To make your embeds responsive, merely wrap them with a containing div which has the class video-container
