CWD- Batch 3- Parallax & Modals

Modals

Use a modal for dialog boxes, confirmation messages, or other content that can be called up. In order for the modal to work you have to add the Modal ID to the link of the trigger. To add a close button, just add the class .modal-close to your button.

[MODALS]

Modals with Fixed Footer

[MODALS]

If you have content that is very long and you want the action buttons to be visible all the time, you can add the modal-fixed-footer class to the modal.

Bottom Sheet Modals

[MODALS]

Bottom Sheet Modals are good for displaying actions to the user on the bottom of a screen. They still act the same as regular modals.

Parallax

Parallax is an effect where the background content or image in this case, is moved at a different speed than the foreground content while scrolling. Check out the demo to get a better idea of it.
